No: 2

No. 577

Deputy Commr. No. 336 dated
17th February 1893 a work
construction of railing to
Dandady Tank bund.

Has the honor to forward
an estimate for constructing
railing to the bund amounting
to Rs. 1254/. For countersignature
and return.

2. In the District Fund
Budget there is no amount

under "Revenue" wherefrom
this estimate could be recom-
mended to the Chief Engineer
for sanction. It is therefore
that a special grant for the
work may be obtained from
Government from Local Funds
General or assets.

3. The estimate has been
cut down to the lowest
possible amount. The stone
posts are spaced 10 feet apart
and thick bamboo railing
being the cheap material,
used instead of costly
jungle or teak wood. These
bamboos well tanned and
preserved will last
sufficiently long and

Estimate No. of 1893-94

No. 1 Sub Division

Shimoga Division

Report.

Report on the estimate for construction of
 railings on both sides of the Danawady tank
 Bund.

This tank is situated in the 51st mile of Chitaldurg Benkipur Road. It was restored last year at a cost of Rs. 35,442/- from Provincial Irrigation Original. As the road passes over the bund of the tank and as the valley on both sides is 30 to 40 ft. deep, it is considered essential for the safety of cart traffic to have railings on both sides. The road being a District Fund road and there being no funds to the credit of the Bund in the Budget of this year, this estimate for railings has been submitted for special allotment from the Local Funds General.

2. The Danawady tank now irrigates 295 acres of wet cultivation with a prospective increase of 165 acres after the sluice channels are constructed which are now in hand.

M. S. S. S. S.

Executive Engineer,
 Shimoga Division.
